

THIS WEEK @ Allen Street Campus

8 pints of Salsa for the Mission!

Grade 8 students are discussing ways they can demonstrate proficiency with transferable skills in citizenship combined with Next Generation Science Standards in Ecology.

SEPTEMBER 17-21 ALLEN STREET CAMPUS

Rutland City Public Schools

Academics

From One of Our Students

“We are working on a Newsletter for the school website. We will let people know about the fun things we do and also how we are helping out the community.

We delivered flowers to the Rutland Regional Hospital on 9-14-18 and on 9-21-18 we went to the Mission to help out all of the homeless people and all of the veterans. We helped out the mission by donating 8 pints of salsa, and we are going to donate more stuff in the future.

This is part of our Social Studies unit on civics. We are answering the question, “how do we make the world a better place?”. We make the world better by helping the ill, the homeless, and our veterans.”

Responsible and Involved Citizenship
