Personalized
Learning**

MARCH 2019

Allen Street Campus RMS students are at it again, this time working with wood and basic power tools to design and build small pieces of furniture. Their final products are often given as gifts to friends and families.

**INTEGRATED
SCIENCE**

- 1) Demonstrate an Understanding of Structure, Function
- 2) Model Engineering Design

Allen Street Campus RHS students continue to raise their trout! The fish are growing strong and healthy, soon to be released into the tank before heading to a local stream.

**Trout in the
Classroom: A
Vermont Fish and
Wildlife Program**

**Trout are raised
from eggs, to then
be let free in our
local streams**

The Trout!

The Fish Tank!
